

PRESS RELEASE

For Immediate Use

A more international ITMA 2019 sets new record with biggest number of exhibitors

20 June 2019 – Since its launch in 1951, ITMA has enjoyed wide industry recognition as the world's largest textile and garment technology exhibition. This year's exhibition in Barcelona sees its reputation solidify further with the largest gathering of exhibitors in its history. The record number of exhibitors totaling 1,717 from 45 countries has set a new milestone.

Speaking at the press conference on the opening day of the 18th edition of the exhibition, Mr Fritz P. Mayer, President of the European Committee of Textile Machinery Manufacturers (CEMATEx), said: "The global economy is still facing challenges, accentuated by trade tensions and disruption. However, textile being the world's oldest manufacturing industry has demonstrated its resilience over the years.

"This is also the spirit of our exhibitors who continually innovate and launch new technologies and solutions. We are glad that ITMA has been providing a reputable platform for textile machinery manufacturers to market their innovations. This has enabled us to record the largest number of exhibitors in ITMA's history."

The exhibits are showcased over 114,500 square metres of net exhibit space, a 9 per cent increase over the previous edition in 2015. The exhibition occupies all nine halls of the Gran Via venue, including the space under the linkway. To allow more companies to participate, many exhibitors were allocated lesser stand space than what they had originally applied for.

Mr Charles Beauduin, Chairman of ITMA Services, organiser of ITMA 2019 enthused: "The exhibition would have been larger if we had not turned away applicants due to a lack of space. Unfortunately, we could not accommodate a wait-list of about 250 applicants who booked some 8,200 square metres."

He added: "ITMA has also evolved into a more international exhibition with a rich diversity of technology offerings from both East and West. Almost half of the total number of exhibitors are from non CEMATEx countries. This augurs well for the development of ITMA into a definitive textile and garment platform for the industry."

International participation

Of the total number of exhibitors, over half are from CEMATEx countries; the balance comprising companies from other parts of Europe, Asia, the Middle East and the Americas.

Reflecting the international composition of the participants, the largest number of exhibitors are from Italy (364 exhibitors), China (276 exhibitors), Germany (222 exhibitors), India (169 exhibitors) and Turkey (164 exhibitors).

CEMATEx countries continue to occupy the largest exhibit space, taking up 65% of the total net exhibit space. Italy booked 26% of the space, followed by Germany which booked 18%. The top non-CEMATEx countries are: Turkey with 9%, China with 8%, and India with 5% of the space booked.

Product sectors

Visitors can expect to source a wide range of integrated solutions across the entire value chain in 19 exhibit sectors. Printing, which has seen many advances being made in the last few years, is an exciting growth sector. Chalking up a 38 per cent increase in the number of exhibitors compared with the previous exhibition, it is one of the top five sectors at ITMA 2019:

- Finishing - 325 exhibitors
- Spinning - 281 exhibitors
- Weaving - 182 exhibitors
- Printing - 157 exhibitors
- Knitting - 136 exhibitors

Nonwoven and technical textiles due to their wide range of applications continue to be an important sector at ITMA 2019. Garment making, which has been impacted by digitalisation and fast fashion, is also making a bigger impact at ITMA.

Mr Mayer said, "We are extremely pleased to bring garment technology back in focus at ITMA. While ITMA has been traditionally strong in textile making technologies, we are glad that we are able to present garment making solutions from some of the world's most renowned technology providers. There is an increase of 27 per cent in number of exhibitors as compared with ITMA 2015."

Completing the entire value chain is the showcase on fibres, yarn and fabrics. The addition of innovative fabrics in the fibre and yarn chapter at ITMA further completes the sourcing experience for buyers.

Focus on innovation

The theme of ITMA 2019 is 'Innovating the World of Textiles'. To support the innovation drive, CEMATEX has introduced the ITMA Innovation Lab. A new umbrella branding of a series of activities, the Lab includes the Research and Innovation Pavilion, ITMA Speakers Platform, ITMA Sustainable Innovation Award and Innovation Video Showcase. Speakers from the industry have been invited to share their perspectives and experiences at the Speakers Platform which will be held from 21 to 25 June. A finance forum will also be held on 21 June.

Co-located events and industry engagement

To encourage the exchange of knowledge, collaboration and networking, several events are staged alongside ITMA 2019.

The ITMA-EDANA Nonwovens Forum and Textile Colourant and Chemical Leaders Forum have met with overwhelming response and seats have been added. Similar strong response has also been received by partner events, including the Better Cotton Initiative Seminar, European Digital Textile Conference, Tex-Summit Global, Planet Textiles, SAC & ZDHC Manufacturer Forum and Texmeeting by TEXFOR.

“The series of co-located events is part of ITMA’s outreach programme to engage industry partners and to create an inclusive platform for the global textile and garment community. We have over 190 international, regional and local organisations lending their support to our exhibition,” Mr Mayer said.

ITMA 2019 is held at Fira de Barcelona Gran Via venue till 26 June. The opening hours are from 10.00am to 6.00pm daily, except 26 June when the exhibition will end at 4.00pm. For more information, please visit www.itma.com or download the ITMA 2019 app.

About CEMATEX & ITMA

The European Committee of Textile Machinery Manufacturers (CEMATEX) comprises national textile machinery associations from Belgium, France, Germany, Italy, Netherlands, Spain, Sweden, Switzerland and the United Kingdom. It is the owner of ITMA and ITMA ASIA. Considered the ‘Olympics’ of textile machinery exhibitions, ITMA has a 68-year history of displaying the latest technology for every single work process of textile and garment making. It is held every four years in Europe.

About ITMA Services

Headquartered in Brussels with a subsidiary in Singapore, ITMA Services is the appointed organiser of ITMA 2019 and future ITMA branded exhibitions. It is managed by professionals with extensive experience in organising ITMA and other major trade exhibitions around the world. It aims to maintain and expand ITMA’s unique selling proposition and relevance to a global audience.
